#### **DIRECTIONS FOR USE**

CRITTER MAXX repellent helps to repel those pesky moles, voles, and gophers that destroy or damage landscapes and planting beds. It is not a poison that will harm or kill animals; it simply makes the environment unpleasant.

CRITTER MAXX may be used safely on all plant material, turf, shrubs, trees, flowers, and crops when used at the recommended rates. CRITTER MAXX may be applied in residential, commercial, or agricultural applications pre or post planting.

### **APPLICATION RATES / INTERVALS**

FERTIGATION / INJECTION SYSTEMS or SPRAYER APPLICATION: Initial application, apply at a rate of 1 gallon / 128 ounces per 10,000 sq. ft. for the first month. If inadequate results are achieved, repeat the initial application rate of 1 gallon / 128 ounces per 10,000 sq. ft. Subsequent applications, after results are achieved, should be at 1 pint / 16 ounces per 10,000 sq. ft. per month.

STORAGE INFORMATION:

Keep container tightly closed. Store in a cool, dry location, away from direct sunlight or where freezing is possible. Failure to follow storage guidelines may lead to product degradation.

KEEP OUT OF REACH OF CHILDREN
