## PRODUCT CATALOG

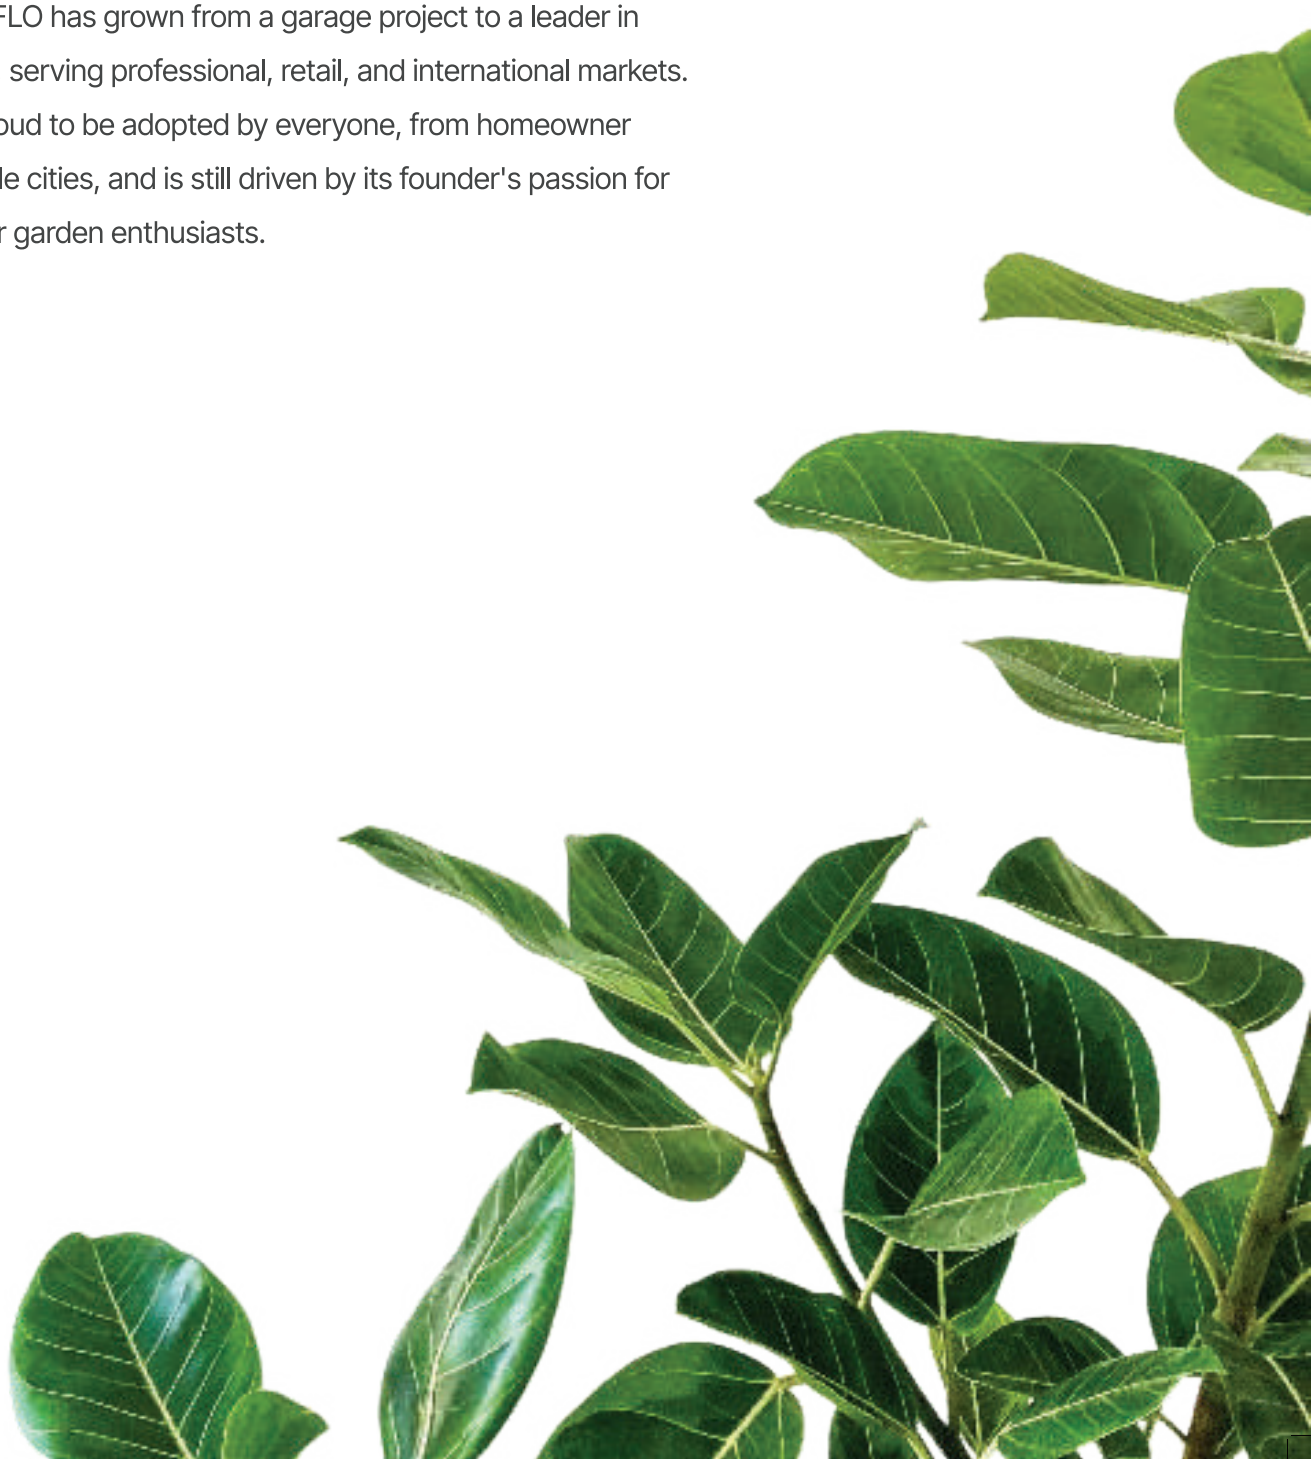

## EZ-FLO: INNOVATIVE

# INJECTION...

EZ-FLO was founded by **Dan Gilmore** and started as a seedling in his mind while he was fertilizing his yard. Tired of spending too much time on watering and fertilizing his greenery, Dan wanted to create something that could take care of his lawn by itself. This led to the birth of a simple, automatic, proportional injection system that saves time and effort.

Over the years, EZ-FLO has grown from a garage project to a leader in injection equipment, serving professional, retail, and international markets. Today, EZ-FLO is proud to be adopted by everyone, from homeowner associations to whole cities, and is still driven by its founder's passion for making life easier for garden enthusiasts.

# EZ-FLO INJECTION

The EZ-FLO Injection system is an innovative solution designed to make the process of fertilizing landscapes faster, easier, and more efficient. With the EZ-FLO system, you can treat a six acre park or a home landscape in minutes versus hours, making it a highly efficient solution for large and small landscapes alike.

By delivering fertilizer directly through the irrigation system, EZ-FLO eliminates the need for manual spreading and reduces the amount of water and labor required. With its ability to deliver the right amount of fertilizer to your plants, EZ-FLO ensures consistent and accurate coverage for optimal plant growth.

Works with all types of irrigation: Rotor, Spray, Drip, & Many More

## TRADITIONAL FERTILIZATION PROBLEMS

**Reducing bulk:** Excessive application of any fertilizer, synthetic or organic, will cause harm. Keep in mind, organic literally stands for organic chemical.

**Inaccurate:** Manual spreading of fertilizer can be inconsistent, leading to missed spots or buildup in others, which can affect the health of your plants.

**Time-consuming:** Fertilizing your landscape manually can be a time-consuming process, especially if you have a large area to cover.

**Tedious:** Fertilizing manually can be a tedious and back-breaking process that can take away from your weekends and other activities.

## BIG FEATURES. BIGGER BENEFITS

**Spend Less, Grow More**

- EZ-FLO improves soil fertility so you save 20-50% less water and fertilizer.
- This means smaller and lighter tanks that don't need to be filled up as often.

**Set It and Forget It**

- Our Main Line Systems connect to your in-ground sprinkler or drip irrigation system.
- Now you can set it up, adjust the feed rate and never miss a feed again!

**Eco-Friendly Design**

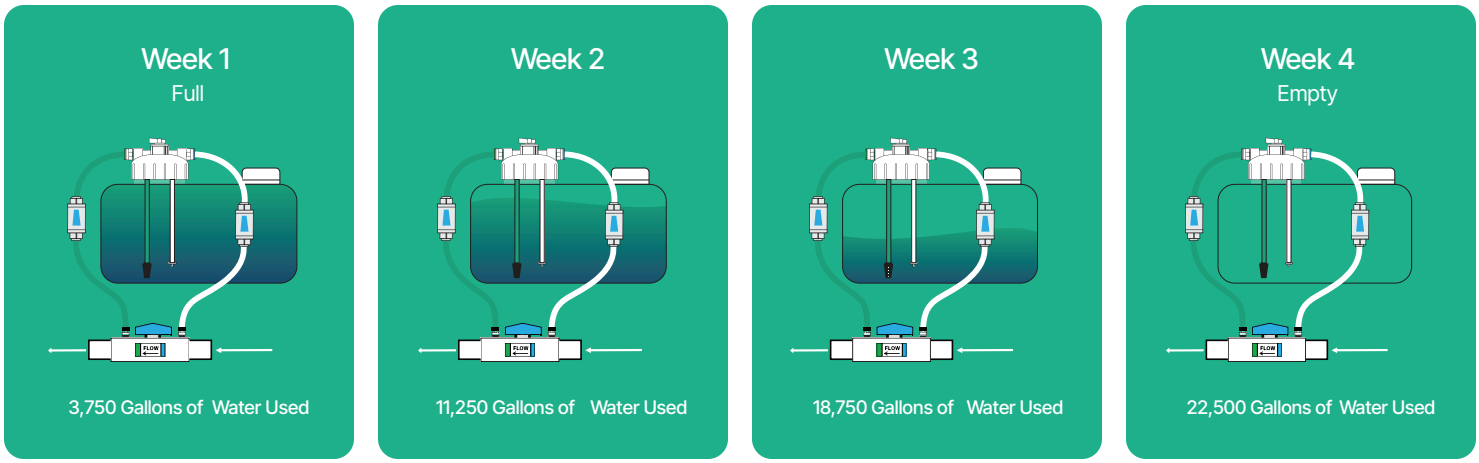

- Our smart solutions means it's hard to over-fertilize.
- No waste, no leftovers - you aren't contributing to fertilizer runoff.
- A small but significant change in your fertigation routine.

**User Friendly**

- EZ-FLO is designed to be so easy so anyone can maintain their landscape like a pro.
- Works with your existing irrigation system, no special tools or professional installation required.

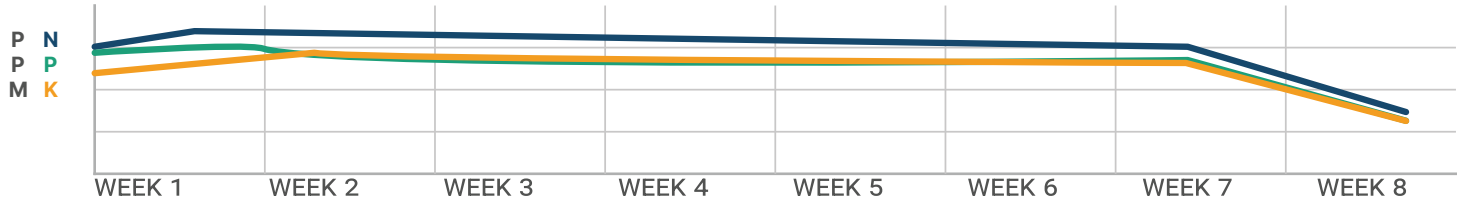

# EZ-FLO TECHNOLOGY

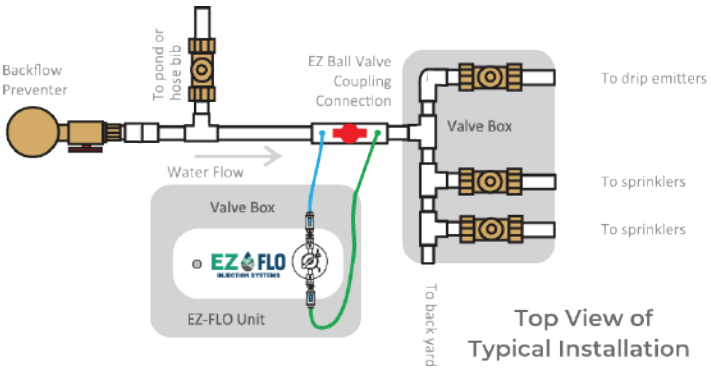

EZ-FLO's patented process is centered around the controlled delivery of products over time. Our Dynamic Suspension technology stratifies the solution into layers, preventing dilution and ensuring consistent application. This unique layering process allows products to be consistently applied over weeks, delivering nutrients exactly when and where they are needed for optimal results.

## INDEPENDENT NPK ANALYSIS

(BASED ON THE SLOW SETTING)

TYPICAL MULTI ZONE INSTALLATION

QR CODE TO LAYERING VIDEO

# SIZING THE TANK

To keep the process simple, we follow a straight forward sizing method that focuses on the irrigated area only for a 4 to 8 week refill period. This ensures you will have ample capacity for a wide range of products.

**Quick Sizing:**

One Pound of Water Soluble Fertilizer Per 1000 SQFT of Landscape (Irrigated area)

**Example:**

75,000 SQFT Landscape (50,000 SQFT of Turf & 25,000 SQFT of Trees & Shrubs)

1 pound of capacity per 1,000 SQFT = 75,000 / 1,000 = 75 LBS of Capacity Needed

## QUICK SIZING REFERENCE CHART:

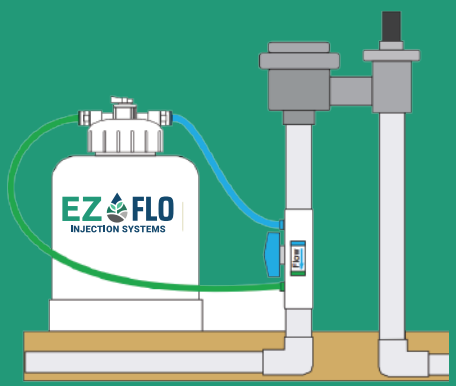

| MODEL | CAPACITY (GALLONS) | CAPACITY (POUNDS) | SQUARE FEET | UNIT SIZE (L X W X H) | VALVE BOX SIZE (L X W X H) |
|---|---|---|---|---|---|
| EZ FLO-1 | .75 | 7.5 | 15,000 | 15" x 8" x 11" | 24" x 13" x 12" |
| EZKIT-1 | 1.75 | 17.5 | 17,500 | 14" x 10" x 11" | 24" x 13" x 12" |
| EZKIT-3 | 2.5 | 25 | 25,000 | 22" x 10" x 11" | 30" x 18" x 17" |
| EZ005-HC | 4.5 | 50 | 50,000 | 24" x 10" x 13" | 30" x 18" x 17" |
| EZ007-HC | 7.5 | 75 | 75,000 | 27" x 12" x 14" | 30" x 18" x 17" |
| EZ010-HC | 10 | 100 | 100,000 | 30" x 12" x 16" | 36" x 24" x 24" |
| EZ017-HC | 17.5 | 175 | 175,000 | 36" x 15" x 22" | 36" x 24" x 24" |
| EZ025-HC | 23 | 225 | 225,000 | 36" x 19" x 22" | 36" x 24" x 24" |
| EZ075-HC | 75 | 700 | 700,000 | 28" x 28" x 72" | ABOVE GRADE |

Using the chart above the **EZ010-HC** is ideal for this 75,000 SQFT application. Want to refill less often, the **EZ017-HC** will last twice as long. Smaller tanks may be used to meet budgetary requirements but may require more frequent refills.

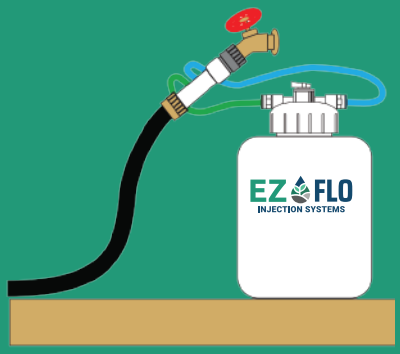

# GARDEN HOSE BIB SYSTEMS

Economical and simple injection options for a wide variety of applications. Used most commonly on small garden drip systems, our Garden Series Injectors have proven to be a versatile tool for the hobbyist and professional alike. Hand water lawns, drench trees, or add a level of sophistication to your garden or drip zone.

- Backyard Hobbyist & Enthusiasts
- Low Cost Fertigation / Injection
- Vegetable Gardens
- Targeted Product Applications

# EZ-FLO MAINLINE SYSTEMS

EZ-FLO Mainline Injection Systems offer distinct advantages for landscape application. Utilizing proprietary fill system, these systems provide double the water soluble product capacity. Compact package with integrated drain valve and separate fill port makes refilling faster and cleaner. Built for residential and commercial use alike.

## EZKIT-1

EZKIT 1.75 GAL.

| | |
|---|---|
| FILL CAPACITY | UP TO 1.75 GAL OR 17.5 LBS |
| DIMENSIONS | 14" X 10" X 11" |
| VALVE BOX SIZE | 24" X 13" X 12" |
| COVERAGE | 17,500 SQ. FT. |
| FLOW RANGE | 2.5 GPH - 300 GPM |
| PRESSURE RANGE | 5 PSI - 80 PSI |
| PRESSURE RELIEF VALVE | N/A |
| CONNECTION | CBV-100 INCLUDED |

## EZKIT-3

EZKIT 2.5 GAL.

| | |
|---|---|
| FILL CAPACITY | UP TO 2.5 GAL OR 25 LBS |
| DIMENSIONS | 22" X 10" X 11" |
| VALVE BOX SIZE | 30" X 18" X 17" |
| COVERAGE | 25,000 SQ. FT. |

# PARTS & ACCESSORIES

Dog ate your tubing? Ran over your tank? EZ-FLO offers a range of parts and accessories to help you maintain and repair your system as needed. Whether it's due to a mischievous pet or an accidental mishap, you can find replacement caps, tubes, connectors, and other essential components in one convenient location. This makes it easy to keep your system running smoothly and ensure that your plants receive the right amount of nutrients and water for optimal growth. With the ability to quickly and easily replace any missing or damaged parts, you can minimize downtime and ensure that your plants receive the care they need to thrive.

# CONNECTORS

The EZ-FLO connection is a proprietary and patented component that is critical to the injection process. Proper selection and installation of the connection is essential for generating successful and repeatable injection results. The connection can be sized to match the diameter of the main line or water source and some EZ-FLO connections may also have a reduction in diameter or valve for feeding at lower flow rates. These diameter reductions or valves, when installed and used properly, will not affect the irrigation system's pressure or flow.

Detailed Connector instructions and videos are available on the company's website to help ensure the right product is selected for trouble-free use for years to come.

## 3060 / 3060CG

EZ-FLO - HOSE THREAD CONNECTORS

For Garden Hose Thread (GHT) connection.

- Fits all 3/4" GHT connections
- PVC 3060 standard with 2005-HB & 2020-HB
- Brass 3060CG standard with 1010-HB
- May be used with any EZ-FLO model for hand spray applications

VISIT WEBSITE FOR MORE DETAILS

## CBV-100 TO CBV-400

EZ-FLO - COUPLING BALL VALVE

For standard main line connection.

- Manufactured from SCH 40 PVC
- Solvent Weld PVC available for 3/4" to 4"
- Female threaded ends available for 3/4" to 1"
- Durable stainless steel barbed tubing connectors

VISIT WEBSITE FOR MORE DETAILS

## SADDLES

EZ-FLO - SADDLE CONNECTIONS

Install on opposing sides of a valve.

- Installed through two 1-1/4" drilled holes
- Venturi connects to saddle with a 3/4" or 1" FIPT
- Contact EZ-FLO for application specifics prior to installation

*Valve required for installation if not already present in the mainline

VISIT WEBSITE FOR MORE DETAILS

## C-SPOOL

EZ-FLO - ENGINEERED SPOOL CONNECTIONS

For any pipe size or application

- Stocked in 4" – 8" with flanged ends & galvanized coating
- Custom ends, materials, coatings, and lengths available
- Contact EZ-FLO for application specifics prior to installation

VISIT WEBSITE FOR MORE DETAILS

# FILL ACCESSORIES

## EZ-FUNNEL

EZ-FLO - FUNNEL

- EZ-FNLSC for smaller systems, large opening for easy powder flow, works with multiple models
- EZ-FNLHC for larger capacity systems, fast filling, minimizes product waste, works with specific models
- EZ-FNLHF for adding powder to our largest injector

VIEW WEBSITE FOR MORE DETAILS

# PREMIUM FILL KIT (PFK)

The EZ-FLO PFK Series - the ultimate solution for all your mixing and dosing needs! With PFK-1, you'll never have to guess which product to use or how much to add.

- Three products for different needs
- Simple to use no guessing required
- High-quality ingredients for optimal growth
- Compatible with all EZ-FLO injection systems

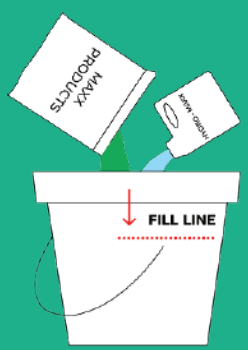

**Instructions:** Simply combine all of the ingredients into the pail, add water to the fill line to make the solution pourable, and fill your EZ-FLO system. No additional measuring or calculations required.

## PFK-1

FERTI-MAXX ALL PURPOSE

- 8 pounds of Ferti-Maxx Landscape Fertilizer - health and growth
- 8 ounces of Hydro-Maxx Wetting Agent - water and nutrient enhancement
- 8 ounces of Maxx-Build Supplement - soil health and nutrient retention

VISIT WEBSITE FOR INGREDIENT LIST

# FERTI-MAXX LIQUID FERTILIZERS

When you want a balance of maximum effectiveness and efficiency, but don't want to sacrifice high quality, choose our fertilizers. Compared to other fertilizers, they have less salt, fewer impurities, and are formulated with a mix of organic and safe synthetic plant nutrients to be as ecofriendly as possible. With Ferti-Maxx products you are improving the soil life allowing your plants to thrive. They have all been tested to be compatible with the EZ-FLO Injectors and your irrigation system, even drip.

This makes them an ideal choice for gardeners and landscapers who want to keep their plants looking healthy and beautiful. With consistent use, you can expect improved root systems and more beautiful plant color and size. These fertilizers are a must-have for anyone who wants to take their landscape to the next level.

## ECO MAXX

FERTI-ECO MAXX (3-2-2)

Provides NPK, humic acid, fulvic acid, and molasses, in addition to Endo & Ecto Mycorrhizae.

- With Endo & Ecto Mycorrhizae fostering beneficial microbial interactions
- A single-step solution for all landscapes
- Compatible with all EZ-FLO injectors and drip irrigation

**Coverage Rate:** 1-4 gallons per acre every 4-8 weeks

VISIT WEBSITE FOR INGREDIENT LIST

## MAXX-C

FERTI-MAXX COMPLETE (18-3-4)

Provides synthetic NPK, carbon, fulvic acid, and iron for fast growth and color enhancement.

- Enriched with carbon, fulvic acid, and iron for rapid growth
- A single-step solution for all landscapes
- Low salt index, safe for all soil types

**Coverage Rate:** 1-4 gallons per acre every 4-8 weeks

VISIT WEBSITE FOR INGREDIENT LIST

## FM SUGAR-25

FERTI-MAXX SUGAR (3-1-2)

Organic based and designed as low growth product for landscape health development and retention.

- High sugar content for quick microbial development
- Promotes healthy soil biology and root growth; effective in cool, warm and hot weather

**Coverage Rate:** 25,000 sq ft per gallon per month

VISIT WEBSITE FOR INGREDIENT LIST

## FM LANDSCAPE - 25

FERTI-MAXX LANDSCAPE (23-13-8)

Designed as a high growth product for rapid landscape maturation and development.

- Boosted with Maxx-Products proprietary organic blend
- Excellent general purpose growth blend; effective in spring, summer and hot weather

**Coverage Rate:** 50,000 sq ft per bag per month

VISIT WEBSITE FOR INGREDIENT LIST

## FM TURF - 25

FERTI-MAXX TURF (26-6-16)

Designed as a high growth product for rapid turf recovery and repair.

- Boosted with Maxx-Products proprietary organic blend
- Slow release Nitrogen for lasting performance; effective in warm and hot weather

**Coverage Rate:** 50,000 sq ft per bag per month

VISIT WEBSITE FOR INGREDIENT LIST

## FM STARTER - 25

FERTI-MAXX STARTER (8-18-28)

Designed as a transplant and winterizing blend to protect your landscape investment.

- Boosted with Maxx-Products proprietary organic blend
- Nitrate Nitrogen with high Phosphorous and Potassium; effective in cool, warm, and hot weather

**Coverage Rate:** 50,000 sq ft per bag per month

VISIT WEBSITE FOR INGREDIENT LIST

## FM COOL - 25

FERTI-MAXX COOL (18-8-18)

High nitrate blend for fast establishment of turf grasses in cool weather.

- Boosted with Maxx-Products proprietary organic blend
- For establishment of cool season grasses and winter greening; effective in cool, spring weather

**Coverage Rate:** 50,000 sq ft per bag per month

VISIT WEBSITE FOR INGREDIENT LIST

## FM TRIPLE 18 - 25

FERTI-MAXX TRIPLE 18 (18-18-18)

Universal blend for all types of landscapes and gardens.

- Boosted with Maxx-Products proprietary organic blend
- Levels of Nitrogen, Phosphorous, & Potassium; effective in spring, warm and hot weather

**Coverage Rate:** 50,000 sq ft per bag per month

VISIT WEBSITE FOR INGREDIENT LIST

# FERTI-MAXX SUPPLEMENTS

Use these fertility supplements alone or to make fertilizers even better. Designed to work seamlessly with all Ferti-Maxx fertilizers, these supplements target specific deficiencies and enhance overall plant health for a lush, vibrant landscape.

- Compatible with all Ferti-Maxx fertilizer products
- Target specific nutrient deficiencies for healthier plants
- Safe for use year round on all landscape types

## IRON MAXX - 1

IRON-MAXX (6-0-0)

Designed to provide dark green color without added growth.

- 5% Chelated non-staining iron supplement
- Effectively treats Iron deficiency
- Can be added to all FERTI-MAXX products, use year round

**Coverage Rate:** 10,000 sq ft per bag or gallon per month.

VISIT WEBSITE FOR INGREDIENT LIST

## COLOR MAXX - 1

COLOR-MAXX (6-0-0)

Color enhancement from the inside out anytime of year.

- Promotes color, activates greening and stabilizes growth
- Broadens leaf structure and enhances nutrient uptake
- Can be added to all FERTI-MAXX products, use year round

**Coverage Rate:** 10,000 sq ft per bag or gallon per month.

VISIT WEBSITE FOR INGREDIENT LIST

# WATER-MAXX WATER TREATMENT

If you don't have the best water quality in your area or you just want to maximize results, our liquid water treatment products will give you a run for your money. They're designed to ramp up soil and water quality. This helps your water flow better, your soil become more absorbent, and makes your plants' roots easier to reach. With WATER-MAXX, you're helping your plants grow and bloom to their greatest potential!

- Boosts soil and water quality for plants
- Enhances water flow, soil absorbency
- Helps plants reach full potential

## HYDRO MAXX - 1

HYDRO-MAXX

Wetting agent that can mix with all FERTI-MAXX products and/or fertilizer blends.

- Reduces water usage up to 30% with consistent moisture penetration
- Frees calcium allowing nutrients to penetrate the full soil profile
- Reduces nutrient and chemical requirements; maintains clean drip emitters

**Coverage Rate:** 160,000 sqft. per gallon

VISIT WEBSITE FOR INGREDIENT LIST

## HYDRO CLEANSE - 1

HYDRO-CLEANSE

Organic acid complex that frees nutrients, cleans drip emitters, opens up plugged systems, and keeps drip systems clean.

- Reduces pH, loosens clay soils, buffers hard water
- The only acid compatible with all EZ-FLO injectors
- Rapidly chelates soil nutrients; use year round

**Coverage Rate:** 40,000 sq/ft.

VISIT WEBSITE FOR INGREDIENT LIST

# MAXX PEST CONTROL

## CRITTER-MAXX

CRITTER-MAXX - CRITTER REPELLENT

Effective against burrowing pests like moles, voles, and gophers.

- A natural and safe solution; no foul odor, won't harm animals or landscapes
- Can be applied through drip or spray, providing flexibility in application method

**Coverage Rate:** 10K to 80K sq ft per gallon per month.

VISIT WEBSITE FOR INGREDIENT LIST

## MAXX-INSECT

MAXX-INSECT - INSECT & RABBIT REPELLENT

Broad spectrum insect repellent formulated to repel the most common pests.

- Use for mosquitoes, fleas, ticks, rabbits, and many more
- Will not harm animals or landscapes; can be applied through drip or spray

**Coverage Rate:** 1-4 ounces per 1000 sq ft per month.

## MAXX-FRESH - 1

MAXX-FRESH - ODOR ELIMINATOR

All-natural, organic yard deodorizer that controls odors from standing water, animal feces, and urine.

- Non-toxic, organic and safe; biodegrades odors, not a masking agent
- Can be used on turf, concrete, grass, and around the house

**Coverage Rate:** 1-4 ounces per 1000 sq ft per month.

# SUSTAINABILITY SIMPLIFIED

At EZ-FLO, we're dedicated to enhancing the beauty and health of all types of landscapes, including sports turf, commercial landscapes, parks, HOA properties, and residential landscapes. Our patented Fertigation system simplifies sustainability by delivering fertilizers directly through irrigation, saving time, water, and labor while reducing waste and runoff.
