DIRECTIONS FOR USE

FERTI-MAXX STARTER is a fertilizer product for use on all plant material. It is optimized for use with fertigation systems but may also be used in foliar applications. FERTI-MAXX STARTER may be added to any FERTI-MAXX fertility product, most other fertilizers, and most agricultural chemicals after conducting a jar test for compatibility. Always treat a small test area with any experimental blends to determine potential phytotoxicity before making general applications. Effective in cool, warm and hot weather.

APPLICATION RATES / INTERVALS

FERTIGATION SYSTEMS: Use 1 pound per every 2,000 square feet. Refill or apply every 4 to 6 weeks. Amount can be increased or decreased depending on desired results and plant needs.

HAND APPLICATIONS: Mix 1/2 Tablespoons per gallon of water and apply by spray or watering can for outdoor plants. Mix 1/4 teaspoon per gallon for indoor plants. Apply every 1 to 2 weeks.

WARNING- Product contains boron and molybdenum. The use of this fertilizing material on any crop(s) other than those recommended may result in serious injury to the crop(s). The application of fertilizing materials containing molybdenum may result in forage crops containing levels of molybdenum which are toxic to ruminant animals.

Information regarding the contents and levels of metals in this product is available on the internet at http://www.aapfco.org/metals.html

PRECAUTIONARY STATEMENTS

Wash skin thoroughly after handling. Get medical advice/ attention if you feel unwell. Dispose of contents/ container in accordance with local/ regional/ national/ international regulations.
