DIRECTIONS FOR USE

Shake vigorously. Do not use other chemicals with this product. For best results apply in the evening. Avoid applying in direct sunlight.

HOSE BIB/HOSE END SPRAYER:
Spray the product evenly on the synthetic turf surface, focusing on areas where pets frequently urinate. Allow the product to dry completely before allowing pets to use the area.

MAINLINE INJECTOR:
Pour product into the EZ-FLO injector and top off with water. Irrigate normally for 4-6 weeks. Refill as needed.

Step 1: remove as much organic waste as possible
Step 2: Thoroughly saturate the affected area. Lightly over spray the area with water before it is dry from the first application. For strong odors repeat as necessary
