SAFETY DATA SHEET

Section 1: Identification

Product Name: Maxx-Fresh
Product Use: Odor Eliminator
Not recommended for: No available information

EZ-FLO Injection Systems
3640 Cincinnati Ave., #C
Rocklin, CA 95765
www.ezfloinjection.com
Emergency Phone: (866) 393-5601
Fax: (916) 652-5754

FOR CHEMICAL EMERGENCY:
Call CHEMTREC, day/night
(800) 424-9300
(703) 527-3887, International

Section 2: Hazard(s) Identification

GHS Ratings:

GHS Hazards

GHS Precautions
Wash hands and face thoroughly after handling.
Dispose of contents/container according to local/state/federal regulations

Signal word: Warning
Not classified as hazardous

Section 3: Composition/Information on Ingredients

This product is to be considered as a mixture/preparation

Common Name	CAS Number	Weight Concentration %
Fermented Vegetable Extract**	094114-07-5	15.00% – 60.00%
Proprietary Surfactant		2.00% to 10.00%
Urea	57-13-6	1.00% to 3.00%

**A natural blend of enzymes from food grade vegetable ferments and filtered water

Section 4: First-Aid Measures

Notes to physician: None

Medical condition possibly aggravated by exposure: None

In case of skin contact: None

In case of eye contact
Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

In case of ingestion: None

Most important symptoms and effects, both acute and delayed
The following symptoms may occur:

In case of inhalation	None
In case of skin contact	None
In case of eye contact	Rinse thoroughly and remove eye contacts
In case of ingestion	None

Indication of any immediate medical attention and special treatment needed
Treat symptomatically.

Section 5: Fire-Fighting Measures

Extinguishing media
Product is nonflammable.

Specific hazards arising from the chemical
Product is nonflammable.

Protective equipment and precautions for firefighters
Wear self-contained breathing apparatus and chemical protective clothing.

Section 6: Accidental Release Measures

Personal precautions
Wear general personal protective equipment

Environmental precautions
None

Methods and material for containment and cleaning up:

Mop up any spilled pridcut and dispose of in sewer

Other information
None

Section 7: Handling and Storage

Precautions for Safe Handling
Avoid breathing vapors and mists. Avoid direct or prolonged contact with skin and eyes. DO NOT ALLOW TO FREEZE. Froze material may be thawed in a warm room. Avoid localized overheating.

Conditions for safe storage, including any incompatibilities
Keep/store only in original container. Store in a well-ventilated place. Keep container tightly closed.

Minimum/Maximum Storage Temperatures:
Store between 40 and 120 degrees F.

Section 8: Exposure Controls / Personal Protection

Exposure Guidelines

Occupational exposure limits

OSHA	PEL	Not Established
	STEL/ceiling	Not Established
ACGIH (2012 TLVs® and BEIs®)		
	TWA	Not Established
	STEL/ceiling	Not Established

Derived No-Effect Level (DNEL) suggested by the manufacturer

None / Not Established

Derived No-Effect Level (DNEL) is the level of exposure to the substance above which humans should not be exposed.

Engineering controls
Designed for outdoor use, ventilation not required.

Personal Protective Equipment

Eye/face protection	Recommended, not required.
Skin Protection	None required.
Respiratory Protection	None required for properly ventilated area.

General Hygiene Considerations
Avoid contact with eyes and skin. Wash hands and face thoroughly after handling. Do not eat, drink or smoke when using this product.

Section 9: Physical and Chemical Properties

Information on basic physical and chemical properties

Appearance	Dark brow hazy liquid
Colour	Brown
Odour	Characteristic
Odour Threshold	No applicable
pH value	4.0 to 5.0
Melting point / freezing range	<0* C (32* F)
Boiling temperature / boiling range	100* C (212 F) at 760 mmHg
Flash point	>140* F. Closed cup
Vapourisation rate/ Evaporation rate	As Water
Flammable solids	Not flammable
Explosion limits (LEL, UEL)	Not applicable
Vapour pressure	As Water
Vapour density	As Water
Relative Density	1.060 to 1.140 at 20* C
Solubility	Completely soluble
Partition coefficient n-octanol /water	Not applicable
Auto Ignition temperature (AIT)	Non flammable
Decomposition temperature	Not applicable
Viscosity	Not available
Explosive properties	Not applicable
Oxidising properties	Not Applicable

Other information
None

Section 10: Stability and Reactivity

Reactivity
No hazardous reaction when handled and stored according to provisions.

Chemical stability
Stable under normal storage and temperature conditions.

Possibility of hazardous reactions
None identified

Conditions to avoid
None identified

Incompatible materials
None identified

Hazardous decomposition products
None identified

Section 11: Toxicological Information

Acute Eye Irritation:

Toxicological Information and Interpretation:

Eye - Mild eye irritation

Acute Skin Irritation:
No test data found for product.

Acute Dermal Toxicity:
No test data found for product.

Acute Respiratory Irritation:
No test data found for product.

Acute Inhalation Toxicity:
No test data found for product.

Acute Oral Toxicity:
No test data found for product.

Chronic Toxicity:
This product does not contain any substances that are considered by OSHA, NTP, IARC, or ACGIH to be "probable" or "suspected" human carcinogens. No additional test data found for product.

11.1.11 Aspiration hazard No data

Section 12: Ecological Information

Ecotoxicological Information:

Toxicity: Fish Acute & Prolonged Toxicity

LC_{50} Pimephales promelas (Fathead Minnow), 96 h: > 1000 mg/L
LC_{50} Oncorhynchus mykiss (Rainbow Trout), 96 h: > 1000 mg/L
LC_{50} Daphina maga (Daphnid), 96 h: > 1000 mg/L

Chemical Fate Information:

Biodegradation of the test substance was initiated at day 0 and continued up until day 21. Thereafter, a plateau was reached and this continued until the end of the test. At day 28, 48.3% was biodegraded, indicating recalcitrant components in the sample. The test substance could not be designated as "readily biodegradable" due to the low degradation percentages found. Toxicity of the test substance and/or nitrification inhibitor was not observed as shown by the biodegradation percentages found, and the endogenous respiration, which was not inhibited.

Section 13: Disposal Considerations

Disposal should be in accordance with applicable federal and state laws.
It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal method in compliance with applicable regulations.

Section 14: Transportation Information

Not classified as dangerous according to transport regulations.

Section 15: Regulatory Information

US State Regulations

California Proposition 65	None ingredient is listed.
California Code of Regulations Title 22 (Health & Safety Code), Chapter 33	

Chemical Inventories

United States TSCA	All ingredients are listed
Canada DSL	All ingredients are listed
European Union (EINECS)	All ingredients are listed
Japan (METI)	All ingredients are listed

Section 16: Other Information

NON-WARRANTY. The information presented in this publication is based upon the research and experience of EZ-FLO Injection Systems. No representation or warranty is made, however, concerning the accuracy or completeness of express or implied, including without limitation any warranty of merchantability or fitness for any particular purposes, and no warranty or representation shall be implied by law or otherwise. Any products sold by EZ-FLO Injection Systems are not warranted as suitable for any particular purpose to the buyer. The suitability of any products for any purpose particular to the buyer is for the buyer to determine. EZ-FLO Injection Systems assumes no responsibility for the section of products suitable to the particular purposes of any particular buyer. EZ-FLO Injection Systems shall in no way be liable for any special, incidental, or consequential damages.
