DIRECTIONS FOR USE

FERTI-MAXX FISH is a fertilizer product for use on all plant material. It is optimized for use with fertigation systems but may also be used in foliar application. FERTI-MAXX FISH may be added to any FERTI_MAXX fertility product, most other fertilizers, and most agricultural chemicals after conducting a jar test for compatibility. Always treat a small test area with any experimental blends to determine potential phytotoxicity before making general applications. Effective in cool, warm, and hot weather. For best results, mix with Ferti-Maxx Supplements.

APPLICATION RATES / INTERVALS

FERTIGATION SYSTEMS: Use 1 gallon for every 10,000 square feet. Refill or apply every 4 to 6 weeks. Amount can be increased or decreased depending on desired results and plant needs.

FOLIAR APPLICATIONS: Mix 3 tablespoons per gallon of water and apply by spray or watering can for outdoor plants. Apply every 1 to 2 weeks.

SHAKE WELL BEFORE USING

PRECAUTIONARY STATEMENTS

Wash skin thoroughly after handling. Get medical advice/attention if you feel unwell. Dispose of contents / container in accordance with local / regional / national / international regulations.

STORAGE INFORMATION:

Keep container tightly closed in a dry and well-ventilated place. Store in a cool location, away from direct sunlight or where freezing is possible. Failure to follow storage guidelines may lead to product degradation. For commercial use only.
